FOREWORD

This represents the second volume of a two-volume audio tape catalog. The entire purpose of both volumes is to present a service to both the visually handicapped and the teachers in all elementary and secondary schools, both public and private, through a unique collection of titles of audio tape recordings. These are available on request. The method of ordering is indicated on the following two pages.

We are especially anxious that these recordings be used for the betterment of informational, cultural and general educational availability to all persons in the State of New York.

Institutions of higher learning are particularly encouraged to make use of those special titles in this collection which have not been duplicated elsewhere and which can broaden as well as supplement areas of learning for the adult student.
